

## Golden Rams Begin Practice

Football practice started Tuesday morning for the Belle Glade Golden Rams. This year's schedule substituted John I. Leonard for Seacrest High School. The season will start off with two Double A schools which the Golden Rams will play at home. "We are starting with a tougher schedule than last year," said Coach Bill Burke. Belle Glade holds an A rating.

The boys were ready to go early Tuesday. They will practice twice a day until August 23 when practice in pads, once a day, will begin. About 20 of the boys are starting practice with shaved heads. The squad was told by the coaching staff that if the shaved heads meant sacrifice, then it looked good because the boys would have to sacrifice to have a winning season. But the 20 shorn players were warned by Burke that if other players were to have their heads shaved, it would have to be voluntary.

Letters returning this season are Andy Ballard, QB, Tim Irvin, End, Mike Foster, Tackle, Auster Jones, HB, Dennis Fussell, Guard, Terry Mann, HB, Eddie McAllister, End, Steve McKinley, End, Bruce Miller, Center, Julio Perez, Guard, Eddie Prevatt, FB, Gerry Remondo, Guard, George Rodriguez, QB, Ernest Sanchez, FB, Jeff Smith, End, Gerald Watson, FB, Mark Watterson, HB, and Johnny Williams, QB.

A team boys trying for a Varsity position are: Tommy Altman, QB, Jorge Blanco, Guard, Jorge Kampa, End, Dennis Connell, HB, Roger Harrell, Tackle, Greg Jones, End, Julian Sanchez, Center, Bo Shiver, Guard, Bobby Smith, Center, Rick Tomes, HB, Freddy Whitlock, FB, Buddy Wilder, HB, and Larry Williams, Guard.

## South Bay City Commission Adopts New Address System

At the South Bay City Commission meeting Monday it was decided that all residences and business establishments would be given street numbers, according to the new numbering system recommended by the county board.

With the new numbering system, it will be easier for the Fire and Police Departments to answer alarms and complaints, and also, it will assure accurate postal delivery if the Post Office Department sees fit to provide local Postal service to the residents.

According to Mrs. Geraldine Weaver, City Clerk, the new numbering system will consist of at least four digits, and no matter how great the population increase is, the system will not have to be altered. This system will also guarantee a more accurate census in 1970.

It was also decided at this meeting that the City Hall Office be kept open two evenings prior to election in order that the City can add to its list of voters for the September 5 election.

Thus far, three candidates are competing for two commission seats, and Mayor Martin Davis is unopposed in Group One.

Howell Goodbread, making his first bid for a commission seat, will oppose Vice-Mayor

## Vaughn-Coughlin Named Directors

Florida Power & Light Company Directors today elected Harry T. Vaughn, Sr., as a member of the Board, and James Coughlin as Vice President.

Vaughn is President of the United States Sugar Corporation of Cleveland, Florida, and serves as a Director and Executive Committee member of the Corporation.

A native of Louisiana, Vaughn attended Tulane and Louisiana State Universities. He began his career in the sugar business in 1919, and worked in Cuba and Haiti for 10 years before joining a predecessor company of U. S. Sugar Corporation in Cleveland.

## Beer And Wine License

Commissioners deliberated the feasibility of setting up a separate zoning classification for restaurants with inside seating to serve beer and wine with meals. Baker was instructed to seek advice of city department heads, particularly Police Chief Charles D. Goodlett, about problems presented with a new zoning classification. Baker will also present a revised ordinance to the Cottage Grill to serve beer and wine under existing zoning classifications.

Mrs. Dunlap said the restaurant will feature Italian food when it receives the beer and wine classification.

## In Other Business

The Commission approved selling muck stripped from city land to anyone who could haul it away.

The sale will be limited to one day a week when city

## Police Departments Build Facilities

Self help programs initiated by the chiefs of police of South Bay and Belle Glade resulted in added facilities for those departments.

The old library building in Belle Glade was given to the Police Department for use as a detective bureau. During the past three weeks since the building was turned over, Chief of Police Charles D. Goodlett, Auxiliary Sergeant Lester McMillan and Detective Lt. E. J. Chisholm and Detective W. D. Love, along with other members of the force devoted off hours and days off to converting the building.

In South Bay, Chief Barry Banks with his staff and auxiliary plus prison labor, created a police station from a garage. The garage, formerly housing the city's fire engine, is now air conditioned, wood paneled, and provides a police station as well as an office for Chief Banks.

The new station also provides easy access to city hall as well as the jail facilities. Policemen contributed about 150 man hours to conversion of the library building in Belle Glade, Chief Goodlett estimated. Some prison labor was also used.

The new facilities which connect to the present police station, provide office space for Lt. Chisholm, an evidence room, office space for detectives and an interrogation room.

# Bingo Ordinance Ordered

## Strict Controls Says Commission Bingo Play In City Will Have

The City Commission Monday instructed their attorney, John Baker, to draft an ordinance that would permit the playing of bingo and guest games in the city.

State law changed under the last legislature permitting the games but city ordinances must be changed to allow the playing of the games in the city.

The ordinance will be presented for first reading in two weeks and the soonest final passage would take one month.

The ordinance provides that non-profit organizations may hold bingo games only by receiving a city permit. There will be no charge for the permit as the games may only be played for charity.

Only non-profit or veterans organizations engaged in charitable, civic, community, benevolent, religious, or scholastic work may obtain permits. Other requirements are:

—the organization must have been in the city for not less than a year and in existence for at least three years.

—net proceeds must be donated to charitable, civic, community, benevolent, religious or scholastic work.

—games may not be held by any organization more than two nights a week.

—prizes are limited to one jackpot of not more than \$100 and games prizes are limited to \$25.

—players must be at least 21 years old.

## Library Board Recommendation

The Commissioners wanted more answers and so tabled the recommendation of the Library Board to sign a year contract for services not yet set up.

The Library Board recommended that the city sign a contract with the county to receive benefits from a county library program. If it is set up.

The program, if approved by the county, would tax all property an additional 1/5 mill, and return to each municipality 15% of the millage. The library board for their share of the new tax. This amount would be for the purchase of the books.

This would mean a return of approximately \$1,500 to Belle Glade, based on last year's budget.

Commissioner Lorenzo Connell said he felt it was a simple pressure move to persuade the county to set up such a system, in addition, said Commissioner Connie Bowen, the return to the Glades would be far less than taxes from this area contributed.

Seven of the Fourteen municipal libraries in the County have already signed the one year contracts. The county system would provide other advantages in addition to supplementing the library budget, City Manager Tevis Huguley said. These include bulk purchasing for reduced rates and the use of the state cataloging facilities, reducing the cost of this process.

A "special applicant in" Caterpillar, the first of its kind here, was delivered at Florida Sugar Corp. L-R are: Bob Adams, Kelly Tractor Co., Tom Swager, Fla. Sugar Corp., Frank Castagnet, Fla. Sugar Corp., and R. W. Kelly, Kelly Tractor Co.

## New Type Tractor Delivered

Kelly Tractor Co., Caterpillar Tractor Dealer in South Florida, announced the delivery of the first "Special Application" Caterpillar diesel tractor in its territory to Florida Sugar Corporation of Belle Glade.

Florida Sugar Corp., which operates a 6500 acre sugar cane farm, raw sugar mill and liquid sugar refinery on State Road 80 east of Belle Glade, received delivery of Cat D-4, Series D, Special Application tractor last week.

Caterpillar Tractor Co. has introduced a new concept in track tractor design with its development of the Special Application D4 and D5 Tractors. These machines are designed with machine balance and transmission gear speed selection solely to meet the needs of today's farmer in agricultural tillage and drawbar applications.

The Caterpillar Diesel Special Application tractors combine transmission speeds in the key tillage range of 2.0 to 4.5 MPH with balanced machine weights to deliver maximum productive efforts at the drawbar. The D-4 D S.A. with 65 DBHP and the D5 S.A. with 90 DBHP promise to be the most efficient tractors in their weight and horsepower class.

## New Students Will Register On Monday, August 28

Monday, August 28, is pre-school registration day for Palm Beach County public elementary and secondary schools announced County School Superintendent Robert W. Fulton.

All students who will attend a different school this year from last year will report for registration," he said. This includes first graders and incoming seventh graders at Junior high and tenth graders at senior high schools.

Superintendent Fulton also said: "Most junior and senior high schools will have only new students to the school report on Monday, August 28. Students registering on August 28 will report to junior and senior high schools at 8:30 a.m. Registration programs will be given for the entire group. Late arrivals miss parts of the programs and require a longer time to complete registration.

Those schools using a different procedure have notified homes by letter or bulletin.

Senior high school offices have been open for some time to receive inquiries, and junior high school offices opened Tuesday (August 8) to answer further questions. Offices at all elementary schools opened August 15.

## Robert Kilner, Jr. 23, Is Missing

Anyone having information about the whereabouts of Robert Kilner, Jr., missing since Friday, is requested to contact the Belle Glade Police Department, said Detective Lt. E. J. Chisholm.

Kilner is 23 years old, 6 feet tall and weighs 150 pounds. He has red hair, grey eyes and a light complexion. When last seen at approximately 8:20 p.m. Friday, Kilner was driving his 1963 Ford white, four door sedan, with 1967 license tag 77W-109.

Kilner lives with his father, Robert Kilner Sr., at 266 N. W. 11th St., in Belle Glade.

## Jaycees Held Conference

At the Jaycee Holiday Isle Conference, August 11, 12, 13, in St. Petersburg, attended by four local Jaycees, the Belle Glade Club was recognized by the State organization as being the first club in the state to have leadership training and community development programs lined up for the coming year.

The Belle Glade delegates, Willy Lee, Pres., Doug Jones, Program Chairman, Clarence Drew, and Edwin Segrest, were recognized as the first to register for the conference.

During the three-day conference, Clarence Drew and Edwin Segrest were named as Vice-Presidents.

## Vaughn-Coughlin Receives Medal In Vietnam

Vaughn is a member of the Federal Reserve Bank of Atlanta and of the Florida East Coast Railway. He is Vice President and Director of the Florida State Chamber of Commerce, and serves as a member of the Florida Council of 100 and the Palm Beach County Committee of 100.

In 1962, Vaughn earned a Certificate of Recognition as the Community's Most Outstanding Industrialist from Governor Farris Bryant. He also holds an Honorary Doctor of Laws Degree from Rollins College.

He and his wife, Evelyn, make their home at 337 East 1st Street in Clearwater. New FPL Vice President James Coughlin is a recognized authority on nuclear power generation. He will head up the Company's activities in working with manufacturers of nuclear equipment for the Turkey Point Plant also, he will coordinate the training of skilled personnel to operate and maintain the nuclear units.

Coughlin brings thorough training and wide experience in nuclear power to his new post at FPL. He received his Ph. D. from Purdue Mechanical Engineering School, where he also served on the teaching staff for several years.

After joining the Atomic Energy Division of Babcock and Wilcox Company in 1955, Coughlin held a number of key assignments which covered nuclear design, construction, fuel cycles, operation, control and economics. He was Nuclear Power Specialist at the time of his move to FPL.

In other action, FPL's Directors declared regular quarterly dividends on the Company's outstanding issues of Preferred Stock, payable September 1, 1967 to Stockholders of record August 17, 1967.

A dividend of 1 cent per share was declared on the Common Stock, payable September 15, 1967 to Stockholders of record August 25, 1967.

## City Commission

crews can load the truck. City Manager Tevis Hugely was authorized to advertise the sale of the first strip of muck, 200 feet wide by about 800 feet at \$1 a yard. Commissioner Farmer moved that funds from the sale be used for building up the old part of the Marina. The motion carried.

Hugely read a letter from the Jaycees expressing appreciation to the city for help when the club held a district caucus at the Marina. Special thanks went to the police department and the club offered its cooperation to the city at any time.

Hugely used a color slide to show work progress around the city. Road building progress, construction of the water plant and repair of manholes by city crews were some of the projects shown by Hugely.

The Commission approved, by a 3 to 2 vote, the return presentation to the commission of the qualifying fee \$25, of Richard H. Burns who withdrew from the Central Borough Commission race.

Commissioners Connie Brown and E. W. Weathers voted no on Burns' request. Mrs. Vera Jones, City Clerk, recommended the return as no campaign cost had been incurred.

The Commission met a half hour early as the Board of Equalization, but no petitioners requested a hearing.

A new contract water rate ordinance was approved on first reading. The contract rate begins with a \$50 minimum charge for up to 155,000 gallons a month. Up to 1 million gallons the cost is \$2.32 a thousand, to 10 millions \$2.4 thousand, to 50 millions \$3.1 a thousand and over 10 million, it is \$3.0 a thousand.

The city now has 12 users under contract.

Mr. and Mrs. T. G. Mayo have returned home after visiting relatives in Lake City.

## J. A. Figueroa Receives Medal In Vietnam

For heroism in combat Specialist First Jose A. Figueroa, son of Mr. and Mrs. Ventura Figueroa, 416 S. W. Third St., Belle Glade, received the Air Medal in Vietnam, July 28.

Serving as a flight engineer on a helicopter of the 178th Assault Support Helicopter Company, Spec. Figueroa earned the award last Feb. 22 during an Operation Junction City.

He was engaged in the initial assault airfield of critically needed personnel and equipment vital to the success of the operation.

Although his aircraft was subjected to intense enemy fire throughout the day, Spec. Figueroa continuously performed the hazardous duty of positioning artillery weapons on the ground while exposed to hostile fire.

Spec. Figueroa's citation reads in part: "Through his courage and determination he contributed immeasurably to the successful accomplishment of the 'airlift mission'."

Spec. Figueroa entered on active duty in August 1965 and was stationed at Ft. Eustis, Va., prior to his arrival in Vietnam in May 1966.

Spec. Figueroa is a 1964 graduate of Belle Glade High School.

He holds the Air Medal.

pool on July 26. When discovered, Dana was in water above her head, unconscious. He was pulled from the water by Ronnie Hart, 13, who was helped by his brother Paul, 14, and Floyd, 14.

These three boys acted promptly and probably saved Dana's life. "Ralph Carder, pool manager said, Carder gave free swimming privileges to the three boys as a token of appreciation for their fast action."

Dennis Snyder who administered the mouth-to-mouth resuscitation was aided by Ed Vandergriff. After Dana started breathing again, treatment was continued until the Municipal Ambulance arrived with respiration equipment.

The awards will be given by Dick Murray, President of the Belle Glade Civic Club.

Rev. and Mrs. Robert Ford and their children Debra and Nicole, former residents of Belle Glade were the guests of Mr. and Mrs. James A. Fraser, Mrs. Hart, 13, and her brother Paul, 14, and Floyd, 14.

Most of the officers were attending the Holiday Isle Conference in St. Petersburg, and will discuss their trip at today's meeting.

## Road Bond Fate Uncertain For This Legislature

The topic of how to finance roads in Florida is still being debated with no conclusive action having been taken by the state legislature.

Still before legislators is a road bond proposal without reference to its financing. County Commissioner E. W. "Bud" Weaver has vigorously supported a proposal to add a 1 cent tax to the gasoline sales, using that tax to 8 cents a gallon. This method of financing would cut out the necessary interest cost. Weaver says, by making the bonds attractive to buyers.

Another proposal was introduced last week by Senator Ralph Potts, D-Miami. Potts proposes adding 2 cents to the gas tax and paying for the construction on an 'as you go' basis during the next 10 years. This would save \$205 million in interest and cost for a \$435 million road bond issue, he said.

Potts has stipulated that the two cent increase would be only 10 years and that it will carry over to the next 10 years. This proposal would save \$205 million during the next 10 years, he said.

## GLADES Civic Club NEWS

At today's meeting of the Pahoike Civic Club, a film distributed through the Sheriff's Department will be shown, entitled "The Thin Line."

At the regular Wednesday meeting of the "Belle Glade Lions Club, film highlights of the Miami Dolphins football team will be shown.

Last week, a lion club was special guest at the Club meeting, brought by Jerry Edens, of the Lion Country Safari. The program also included father and son day, and the children had a great time, said Dr. Tom Baker, Program Chairman.

A film taken in England of a place similar to Lion Country Safari was shown to the group, and Edens said three T. V. series are proposed to be shot here at the local Lion Country.

Even though Lion Country Safari will open August 29 an official dedication will not take place until November.

General news about the regular meeting of the Belle Glade Jaycees Thursday night.

Most of the officers were attending the Holiday Isle Conference in St. Petersburg, and will discuss their trip at today's meeting.

## Ruth S. Barron Services Held Here Monday

Ruth Smith Barron, 74, of 123 S. W. Ave. B, died Friday at John F. Kennedy Hospital, Lake Worth.

Mrs. Barron and her late husband, J. M. Barron came to Belle Glade in 1938 from Miami. She is a charter member of the Everglades Presbyterian Church.

She is survived by one step-son, James M. Barron, Starke, Fla., one sister and two grand-nieces; Mrs. Edna K. Warren of Fort Lauderdale, and Mrs. Marie Connor of Atlanta.

Services were held Monday at the Everglades Presbyterian Church with Rev. J. Paul Vorn-dreck officiating. Interment was in the family plot at Woodlawn Cemetery, West Palm Beach.

Pallbearers were: Charles Crichfield, Cecil McClure, Ray Parrish, Robert Lamar, David Motes, and Urban Felsing.

## Paintings Given City

Mrs. Henry O. Earwood presented the city with two paintings of the city seal Monday. Mrs. Earwood, art teacher at Belle Glade High School, painted the city seal on a grey background with a scroll designating the Police Department, to be hung in the office of Chief of Police Charles D. Goodlett.

A larger set on blue background, was painted for the city manager's office.

The commission accepted the paintings and directed City Manager Tevis Hugely to send a letter to the Mrs. Earwood in appreciation.

The seals symbolize Belle Glade with the lake, golf course, paved road, black mud, and an overturned hamper of produce.

The Creech's three children were present. Dr. R. Y. Creech, Jr., and Mrs. Charles J. Fontaine, both of Belle Glade and Mr. J. Barnes Creech, Ft. Myers Beach. The entire group of 40 attended church in Ft. Myers, and continued the day's celebration with a family barbecue at the Ft. Myers Beach Hotel, which Barnes Creech manages.

Later in the afternoon an open house was held and many friends of the couple came by to wish them well.

Mr. and Mrs. Ted Daniels have returned from a pleasant vacation in the Lake of the Woods area, Ontario, Canada. While there they visited Newtor Falls and took a boat trip on the "Wisconsin Belle." Their trip was devoted mainly to finding the best fishing spots in the Ontario area.

Mr. and Mrs. J. A. Allhands began a month's vacation by flying to Pontiac, Illinois Tuesday.

Mr. and Mrs. Jimmy Smith enjoyed their vacation, camping at Lake Griffin Park, Leesburg, where they went fishing, their favorite sport. They also fished in the local area.

Recent guests of Mr. and Mrs. Will Uim were her son and wife, Mr. and Mrs. Dan Hayes from St. Petersburg. They also visited with Mrs. Hayes' brother-in-law and sister, Mr. and Mrs. James Chamber and family.

Mr. and Mrs. E. B. McDaniels was visited this week by her roommate at Howey Academy, May Laffer of Sanford. Earlier in the summer, Pat represented Howey Academy at a meeting at the University of Florida, Gainesville where she visited the University's School of Journalism.

The E. B. McDaniels, vacationed for two weeks in North Carolina in the latter part of July. While there, they visited relatives and enjoyed the scenery.

Mr. and Mrs. Pete Williams and family vacationed in Ocala and Ft. Pierce during their week off from their restaurant. While they were gone Mrs. Mildred Platt and Mrs. Dorothy Hayes, former owners took over.

Tommy, Brenda and Sharon Cox from Cocoa Beach are visiting their grandparents, Mr. and Mrs. P. L. Burke. The Burkes visited their son-in-law and daughter Mr. and Mrs. Buddy Cox earlier. Also visiting the Burkes is her mother, Mrs. Florence Moore from Ft. Lauderdale.

Mr. and Mrs. Junior Allen Collins and children, Wade, Westly, Laurette and John Clay enjoyed a two and half week vacation at the Creechfield cottage in Dillboro, N. C.

Charles Ruff, son of Mrs. Lois Ruff attended six weeks at Brakes Junior College.

Mr. and Mrs. T. E. Strickland spent a week recently visiting her sister, Mrs. Paul Raymond in St. Paul.

Mrs. Robert E. Mathews, Jr. and Mrs. Mary spent two weeks in Orlando with her aunt, Mrs. Rosa Thornton. Charles who attended four weeks at Camp Oklawaha joined his mother and brother later. Earlier in July Mr. and Mrs. Mathews enjoyed a vacation trip to Jamaica.

## THOUGHT OF THE WEEK

The city has always been the decisive battle ground of civilization and religion. It intensifies all the natural tendencies of man. From its fomented energies, as well as from its greater weight of numbers, the city controls. Ancient civilizations rose and fell with their leading cities. In modern times, it is hardly too much to say, "as goes the city so goes the world." S. J. McPherson.

## Housing - Population's Curse

When Belle Glade first appeared in the U. S. Census in that year of 1926, there was a population of 926. That was in 1930. In 1960 population was 11,273. Estimates for 1967 range upwards of 20,000 people in residence in our community.

Between 1950 and 1960 there was an increase in population in the Lake Area of 5,000 people, Belle Glade's share of this increase was 80%, or 4,000 people.

This is a blessing and a curse. The curse of our population increase is stated in a 1964 Comprehensive Plan prepared for the city by the Florida Development Commission which states:

The Negro section of the community cannot house additional population. The expansion of agricultural activities will undoubtedly result in an increase of the Negro population. Any increase will have to reside outside the city limits or the limits will have to be extended. IF FUTURE HOUSING FOR THESE PEOPLE IS TO BE OF ACCEPTANCE STANDARDS THE PRESENT population density (in 1964) could only be acceptably housed by uniform coverage of three-story apartment buildings on all residential lots. THIS IS NOT THE PRESENT SITUATION. (Capitalization is ours).

The City Commission is now considering plans to convert land to the South West of the city and the East of State Road 715 from agricultural use to residential use.

The land is presently owned and used by the United States Sugar Corporation based in Clewiston. Mayor Bill J. Bailey complimented United States Sugar Corporation President Harry T. Vaughn

and his staff for their willingness to work with the city in their attempts to remedy the problem. Mr. Vaughn personally and all of his staff have been most cooperative, Bailey said.

Within the next two weeks the Commissioners will make public the latest progress. We are hopeful that finally a solution can be reached releasing this vitally needed residential expansion site.

Some are pessimistic about the prospect of a solution, remembering committees and negotiations on this subject stretching back for eight years, with no results.

A solution to this problem will be but a start in solving the additional housing needs. Remedial action as well as steps to prevent additional problems such as are now faced in the overpopulated Negro community are next on the list. We must not lose sight of the need for continued action nor must Belle Glade hesitate longer in the breaking down of the sugar cane wall to the south.

Stewart L. Udall, Secretary of the U. S. Department of Interior, recently commented, "Let us work together to retain the beauty of our natural environment for generations to come while, at the same time, we utilize the resources with which nature has endowed this continent to widen the horizons of the civilization we enjoy for the betterment of man."

## Uncle Dan from Doolie Says

Dear Mister Editor:

The meeting at the country store Saturday night was sorer like some of them sessions of the Congress, everybody talking at once and nobody knowing what they were talking about.

Josh Clobdough, that usual waltz till the session is half over afore he puts in his two-bits worth, started it off by announcing he had saw in the papers where a science professor at the University of Maryland was working on some kind of crossbreed project where roosters would lay eggs. He said he was strong again in on account of it would cause too much confusion in the henhouse.

Ed Doolittle allowed as how this was in line with the Great Society's plan to make everything and everybody equal, down to the hens and the roosters.

Zele Grab was agreed with Ed, said he wouldn't be surprised none if the Government wasn't behind this business of men wearing their hair long like wimmen and wimmen wearing their pants long like men.

Bug Hookum said these items was the least of his worries, that he didn't care if wimmen wore skirts or pants and he was hoping the men wouldn't let their hair get so long they couldn't see where they were going.

Anytime, Mister Editor, you mention skirts at a session at the country store everybody goes into the act immediate. Ed said he had saw where some fellow in England had made a study and found the skirt, the shorter the skirt. Furthermore, Ed said the study showed when times was hard wimmen wore long skirts and when times was good they wore as near nothing as they could and stay out of jail. He said this was the Democrats for you, paying more for less.

As skirts got higher the dollar gets cheaper, that 125 dress now has a tenth as much cloth in it as a \$8 dress had under the Republicans.

Clen Webster of the Great Society was defending the Democrats said these short skirts was in line with our program for truth in packaging. It was mighty hard, he said, for a girl with nubby knees to hide 'em in one of them mini-skirts.

Ed come back and said he was again it, but he wouldn't be surprised none if the Democrats didn't get a law passed in the Great Society program outlawing lipstick, face powder, and all the stuff wimmen was wearing to change their looks and shape on account of them things was again truth in packaging.

Personal, Mister Editor, I was of the opinion at the session Saturday night that the fellow was like a lot of politicians. They was suffering from what is called "bad reflexes." That's when they was too long a time between getting done talking and shutting up.

Yours truly,

Uncle Dan

## THE FARM FRONT

### WORLD WAR ON HUNGER

By Doyle Conner, Commissioner of Agriculture  
The United States has both moral and practical reasons for wanting to win the world war on hunger because, peace and our own security depend upon our winning it.

I am reminded of a popular song a few years ago, which tells of the "rich getting richer and the poor getting poorer."

Today, this holds true in many parts of our planet, where there is a growing gap between the "haves" and "have-nots" countries.

Food remains the most significant economic and social factor in this world of ours. The primary reason for every so-called "brush war" which has erupted since the end of World War II and in which

the United States has become involved has been the lack of food.

There are 900 million people in the "rich" countries of the world — Europe, North America, Oceania and Japan — but there are nearly 2.5 billion in the hungry nations of the Southern Hemisphere, including mainland China.

We commit ourselves to the War on Hunger, because every major value of human existence is involved.

But while we are intent upon feeding the hungry nations of the world, we are letting our own food reserves dwindle.

The corn crop this year will just about cover the needs of our nation for one year, with production expected to total about 4.5 billion bushels.

Grain surpluses supply also are expected to fall short of the 1966 season while the government will attempt more steps to get higher production of milk.

While the concern over the growing need for a build-up of surplus food supplies is much in evidence in Washington, this concern might be hidden by a demand to expand our food for peace program.

Much of the buildup, in fact, will be used for the War on Hunger, but a greater average percent of it will be stock-piled for our own use.

At the same time, administrators of food for peace programs bar that the United States has overstepped its capabilities in supply that amounts to about 58 percent of all assistance developing nations.

In a recent report, President Johnson's Science Advisory Committee's World Food Panel debunked the popular notion that this country can export its technological expertise on a "know-how, show-how" basis.

Following a lengthy survey of foreign aid programs, the panel concluded that agricultural science does not have all the answers to the problems of increasing food production.

The report stated, what might be good farming in Iowa could be completely wasteful in India and other countries, and added:

"Food supply is directly related to technological development. In turn, agricultural development and overall economic development are critically interdependent in the hungry countries."

## SENSING THE NEWS

By Thurman Sensing

EXECUTIVE VICE PRESIDENT  
Southern States Industrial Council

### COMMON SENSE ON SLUMS

In proposing a domestic Marshall Plan to rid the nation of slums and slum problems, including guerrilla in the streets of America, Vice President Hubert Humphrey ignores human and economic realities. Disasters such as the terrible riot in Detroit cannot be stopped by vastly increasing public spending. Slums cannot be eliminated by federal expenditures for building more slums; people make slums.

Indeed one of the lessons of the Detroit tragedy is that anti-poverty programs do not constitute insurance for American cities against the ravages of rioters, looters and arsonists. Detroit had king-size anti-poverty programs in operation when the rioting broke out. Street revolutionaries, who destroyed approximately half a billion dollars worth of property, were not inhibited in their terrorism by government handouts.

Unfortunately, the liberals still rely on public spending as a cure-all. Like the Bourbon kings of old, they learn nothing and forget nothing. After the initial shock of the rioting, they are back at the old stand, calling for more public spending to prevent further outbreaks. THE NEW YORK TIMES, for example, speaks of "the urban poor condemned to the slums." It sees huge outlays of cash as the avenue to municipal peace.

These fallacies. In the first place, no American is "condemned" to a slum. He may live in one, but he can escape by hard work. No country in the world offers such economic opportunity or social mobility for people on the bottom sill of life. The history of America is the history of hard-working people who get ahead. Generations of Americans have started with nothing, and made a comfortable place for

themselves in their communities. Why is it that one group of Americans in today's cities seem to be stalled? It is not a lack of opportunity. Never before has there been so much free education. Jobs are abundant. But education and job opportunity are useless if there is no will to learn and no desire to work, if government teaches one group that it is entitled to an endless variety of handouts and special privileges. This is what Big Government has been preaching in recent years. This is the philosophy of the liberals.

It is not surprising, therefore, that one group now apparently believes that it has no obligation to pull itself up by its own bootstraps, that this is a duty of government or social assistance agencies. And as government, in the last analysis, really is unable to uplift a people to the level of self-reliant citizens, the handout-happy people become resentful

and bitter. They feed on the emotional diet doled out by communists and fellow-travelers.

The liberal doctrine of social "revolution" in a few years has been translated into an imagined riot to riot and looting. Those who have been taught that they are poor because Society let them down are now rapidly gaining the idea that they don't have to pay for goods — that all they need is to throw a brick through a plateglass window and reach in and grab a color TV set.

The classical definition of this situation is Anarchy. Civilized societies have to arm themselves against this situation — literally as well as in terms of political understanding. Thus the first step for restoration of decency in America's cities is a massive strengthening of the law enforcement agencies and only laws under which they operate.

Before the blight of slums can be removed, slum-dwellers must acquire a new outlook. They must regain the respect for law that has been eroded. The recent riots. The best way to rebuild such respect is by full and prompt prosecution of promoters of riotous such as Stokely Carmichael, former head of the Student Non-Violent Coordinating Committee. Carmichael showed his true colors when he surfaced in Havana, threatened vengeance against the President of the United States, and described Chinese Communist Dictator Mao Tse-tung as a "good" man.

Carmichael and other apostles of urban terrorism must be brought to justice. If respect for law and belief in hard work are recreated in the hearts of disorderly citizens, then and only then will it be possible to eliminate slums.

### Bible Written That We Might Believe

BY

Rev. John W. Shaw, Pastor of Belle Glade Alliance Church, 425 East Canal Street North, Belle Glade, Florida.

The Old Testament is an account of a nation while the New Testament is an account of a man. The nation was founded and nurtured of God to bring this man into the world.

The first mention of God is found in the first four words of Genesis 1:1. "In the beginning God . . ." God Himself became Man to give us a concrete idea of what to think of, when we think of God. (John 1:1-3). As a Man He lived the most strange but beautiful life that was and ever will be known. He so loved people

and hated sin that He gave His Only Begotten Son, "that whosoever believeth in Him should not perish but have everlasting life." (John 3:16) He died to take away the sin of the world and to become the world's only Redeemer and Saviour of men. He arose from the dead; and is Alive Now; not only as an historical character, but as a Living Person. He is the most important fact of history and the most vital force in the world today.

The whole Bible centers around the beautiful story of Jesus Christ and His promise of Life Everlasting to men. It was written only that we might believe, and understand, and know, and love, and follow Him.

Jesus Christ, the Center and Heart of the Bible, the Center and Heart of History, desires to be the Center and Heart of your life. To be His is the most wonderful privilege of mankind. The most glorious thing in the world is to become a Biblical Christian. The one thing in life that really matters is our individual personal relationship to Jesus Christ. Are you a Christian? You answer that you are a church member; you have been baptized; I even gave a tenth of my income. That is well and good but have you ever been born again? You see we have all been born the first time of our earthly parents by way of the flesh and so all we desire is to please our flesh, but when you are "born again," born of God's Spirit then you desire things of the Spirit. (John 3:3-7, 14-21).

May the BIBLE be an OPEN BOOK in your home, not only READ, but STUDIED by YOU and YOUR FAMILY. Today may Jesus Christ become Your Life.

Read Matthew 7:1-5

"Pass no judgment, and you will not be judged. For as you judge others, so you will yourselves be judged." — Matthew 7:1-2 (NIV)

**PRAYER:** O God, let the mirror of Thy Word reveal me to myself. May the Holy Spirit remind me how I look. Teach me to look to Christ as my example and live in His spirit rather than being critical of what others look like. In Jesus' name. Amen.

## En Los Glades

Tres nuevas variedades de caña de azúcar están disponibles para usar en la zona de acuerdo con el Florida Agricultural Experiment Station. Dos de las variedades son de maduración temprana y adaptadas para áreas de tierra localizada varias millas fuera del Lago Okechobee.

La otra variedad es de maduración tardía y puede ser sembrada en las áreas cercanas bordeando el lago. Todas estas tres variedades son sin insecticidas.

Una de estas variedades, la CP 56-59 además de adaptarse para las regiones sur finas del lago, también se adapta para cosecha temprana en las secciones cálidas. Es moderadamente resistente a la enfermedad micoica.

La de maduración tardía CP 57-603 produce tanta azúcar por tonelada de caña como la CP 41-223 y sobrepasa la misma variedad en rendimiento de azúcar por acre por 47 por ciento.

La tercera introducción de maduración temprana, CP 59-73 sobrepasa por su capacidad de resistir. También ha producido rendimiento de azúcar por tonelada de caña igual a la CP 41-223, pero sobrepasa la misma variedad en rendimiento de azúcar por acre por 47 por ciento.

Informaciones sobre semillas de estas cañas pueden solicitarse al Florida Sugar Cane League, Box 1148, Clewiston, Florida.

# \$31 Million Set for PBC. In Road Bond Program

Palm Beach County roads listed in the proposed bond issue are:

Under type of work column, GPS means Grading, Paving and Structures and identifies new construction. WAR means widening and resurfacing. R/W found as a part of a few projects mean right-of-way. Under the extreme right heading "engineering justification," is the information Road Department engineers used to justify placing the projects in the bond amendment. For nearly every project there is a number, immediately followed by a letter (example: 4,300-C).

The number is the average daily traffic volume of vehicles that used the section of road in 1966. The letter refers to the condition of the road as established by the Road Department's Sufficiency Ratings. Sufficiency Ratings measure the ability of the road to carry its traffic load properly. Highway engineers consider structural adequacy, safety, service and present traffic volume in assigning a rating to each stretch of road. Each section is listed as either Good (G), Tolerable (T), Poor (P), or Critical (C).

## Caloosahatchee Enlargement Contract Let

A \$2,539,220 contract was awarded by the U. S. Army Corps of Engineers for enlargement of a 10-mile segment of the Caloosahatchee River channel as a part of the Central and Southern Florida Flood Control Project.

The contract was awarded to Rontley, Inc., of Miami Springs. Some 40 miles of the river enlargement have already been completed.

Under the new contract, Army Engineers said, the channel will be widened from the existing 90 feet to 110 feet and will be deepened from the existing 15 feet to a new depth of about 20 feet in this reach. Material excavated from the channel will be placed on either side of the river and will be graded and planted in grass and tree seedlings. Thirty-one drainage culverts ranging in size from 3 to 6 feet in diameter will be placed in the spoil banks for drainage purposes. All the work is in Glades County, Colonel Tabb said.

Completion of the job will be required within 75 calendar days.

Director Louie L. Wainwright of the Florida Division of Corrections announced in Tallahassee that a retired employee of Glades Correctional

## People Problems Cause Accidents Says FHP

TALLAHASSEE — Worry and hurry were two other "People Problems" the Florida Highway Patrol today added to their growing list of causes contributing to many traffic crashes on Florida's streets and highways.

Many a person will get himself into a traffic accident in the next 24 hours because of something that happened to the driver earlier, miles away, Colonel H. N. Kirkman, Director of the Department of Public Safety predicted today.

"If the next 24 hours are normal, there will be some traffic accidents caused by 'People Problems' of worry and hurry. Things that have happened miles from the scene can set the stage for an accident when the driver's mind is somewhere else.

"Motorists should never attempt to drive when they are emotionally upset over anything," said the Patrol Chief. "Safe driving requires an undivided, present attention at all times, but if you must drive when disturbed, try hard to temporarily divorce yourself from your troubles."

The other accident causing problem mentioned by the Patrol was the "in-a-hurry" driving attitude some motorists rush into, by not allowing enough time to get to their destination safely.

"As a safety precaution," concluded Kirkman, "expect delays, plan to leave earlier and don't drive your troubles around with you. The driver's seat is no place for a think-break."

Institution, Mr. James H. Thompson, had been awarded a Certificate of Merit by the State Personnel Board. The Board, consisting of Governor Kirk and the entire Cabinet, authorized the award to Mr. Thompson for his suggestion concerning the "reconditioning of used files."

Section 110.15 of the Florida Statutes provides for such awards to state employees for superior accomplishments and exceptional contributions to efficiency, economy, or other improvements in the operation of State Government. Mr. Thompson, formerly Storekeeper at Glades Correctional Institution, is the seventh Division of Corrections employee to receive the Certificate since 1961.

## Mrs. B. K. Shelton Attends Institute

In Chicago, Illinois, this week, attending the Basic Institute for Medical Record Personnel conducted by the American Association of Medical Record Librarians in cooperation with the American Hospital Association, August 7-11, 1967, is Mrs. Bill K. (Dana) Shelton who is the Medical Librarian and Head of Medical Record Department at Glades General Hospital.

The institute is an educational program designed to assist medical record personnel in attaining professional knowledge and skill in this relatively new and expanding specialty. Personnel in hospitals desiring to qualify for "Medicare" find this program very beneficial. There are at present 3,700 Registered Record Librarians to meet the demands of the nation more than 8,000 hospitals and approximately 4,000 extended care facilities now qualifying for "Medicare" patients.

## MEN IN SERVICE

### Dukes

Army Private Arthur R. Dukes, Jr., 22, whose parents live at 536 S. W. 13th St., Belle Glade, Fla., is participating in "Exercise Coral Sands II," a joint-service amphibious assault on the island of Molokai, Hawaii.

Stationed at Schofield Barracks, Hawaii, he is one of more than 6,000 soldiers and sailors participating in the mock operation.

A member of the Army Landing Force, he will land on the "enemy-held" beach to seize and destroy several enemy missile bases. After proceeding through the rugged interior of the island, he and his unit will conduct counterintelligence operations against the guerrillas and accomplish a tactical withdrawal from the island.

Dukes is a grenadier in Company B, 3rd Battalion, 1st Infantry, of the 11th Infantry Brigade.

### Stickney

Airman David A. Stickney, son of Mr. and Mrs. Robert M. Stickney of 1649 Avenue J, NE, Belle Glade, has received his first U. S. Air Force duty assignment after completing basic training at Lackland AFB, Tex.

He has been assigned to Fairchild AFB, Wash., for training and duty as a training system specialist. He becomes a member of the Strategic Air Command, America's long-range nuclear bomber and missile force.

### Western

Marine Private Jackie G. Western, son of Mrs. Margaret Western of Belle Glade, is going through recruit training at the Marine Corps Recruit Depot at Parris Island.

His first stop when he arrived here was the Depot's receiving barracks where all new recruits are processed. Here he received his first issue of Marine uniforms, the equipment he will use in training, and his first military haircut.

After being placed in a training platoon with other new recruits, he left the receiving barracks and began his formal Marine training under the close guidance of his Drill Instructors, or "D.I.'s."

H. Bunn McCall, quali Tuesday from North Boro North Borough now three contenders for the mission seat. They are, Geo C. Young, incumbent Aub Farmer and McCall.

As of press time Wedr day, Mayor Bill J. Bailey unopposed in Central Boro and the West Borough seat a three man race. From W Borough are Willie, "I Right" Pyrom, Davis K lighter, and "Ray" E. Alt.

Qualifying, McCall said: In response to many quests by citizens of B Glade I am offering myself a candidate for the City Co mission. As a candidate, I w to state that I believe in a g ernment "Of the People, the People and For the P ple," not one for individ special interest groups or political expediency.

"I am old enough to ex cise mature judgement, you enough to be progressive my thinking, I believe that education and business ex ence, particularly in the fi of finance, qualifies me to w a seat on the Commis Our City is a big business a needs a businessman to h operate it.

"I will have an open d and an open mind to the p ple of Belle Glade and b needs and desires. If elec I will seek to better our C in every way possible with burdening you with increa taxes. I will be happy to c cum these matters with y at any time.

"I ask that you join w in building a BETTI BELLE GLADE."
